PROFILE

Technology professional with extensive expertise in development, server administration, and cybersecurity, driving innovation and delivering impactful solutions. My continuous commitment to staying at the forefront of technological advancements allows me to pioneer cutting-edge solutions, meeting the evolving needs of the industry.

In the realm of **cybersecurity**, I am dedicated facilitating Pentesting activities to ensure robust protection. Ready to propel teams forward with my expertise and dedication in cybersecurity strategies that safeguard against evolving threats.

Within **development**, my experience spans diverse areas, leading web and mobile application projects. My proficiency enables me to execute efficient coding strategies, tackling complex challenges to deliver high-quality solutions.

In s**erver administration**, I cultivate expertise in container usage and system efficiency enhancements. My skills allow me to streamline processes and foster collaboration across teams, ensuring optimal security and performance.

Beyond technical skills, I bring entrepreneurial experience, spearheading ventures and excelling in **digital marketing**. Proficient in **agile methodologies**, I've successfully applied these frameworks to optimize project workflows and deliver results. In **leadership** roles, I've fostered collaborative environments, steering teams towards shared goals with a focus on efficiency and innovation.

EDUCATION

📅 07/2021 – PRESENT 📍 MONTEVIDEO, URUGUAY
### Computer Engineer
UDELAR
This professional, currently undergoing extensive Computing training with possible specialization, can develop small to medium systems and engage in larger projects. They excel in planning, developing, maintaining, and implementing computerized systems, possessing skills to define problems, create software solutions, evaluate alternatives, and integrate technologies.
